

Award-Winning Home Cinema Excellence

Designed personally, start to finish

Every project is designed, built and programmed under the direct eye of MD Ciaran Wilkins, on-site daily from first fix to handover.

Engineered to outperform the multiplex

Every system is built on scientific acoustic and calibration principles, not just premium equipment.

Award-winning, for over 30 years

Multiple CEDIA and ISE awards for Best Home Cinema, Best Media Room and Best AV Rack, across three decades of bespoke installations.

On-site from first fix to handover

We stay responsible for every project's design, build, set-up and programming from beginning to end, on-site every day until it's done.

Immersive, discreet, built for how you actually watch

With production values from streaming platforms now at cinema-grade, we can deliver fully immersive sound and vision.

Three decades of award-winning home cinema 7

A lounge that transforms at the touch of a button

A hidden projector turns a family room into a cinema and gaming retreat, with automated curtains and mood lighting completing the experience.

HAA-certified acoustics, tuned to the room

We place equipment, seating and speakers for reference-level volume and clarity, then fine-tune EQ, timing delays and sound pressure levels.

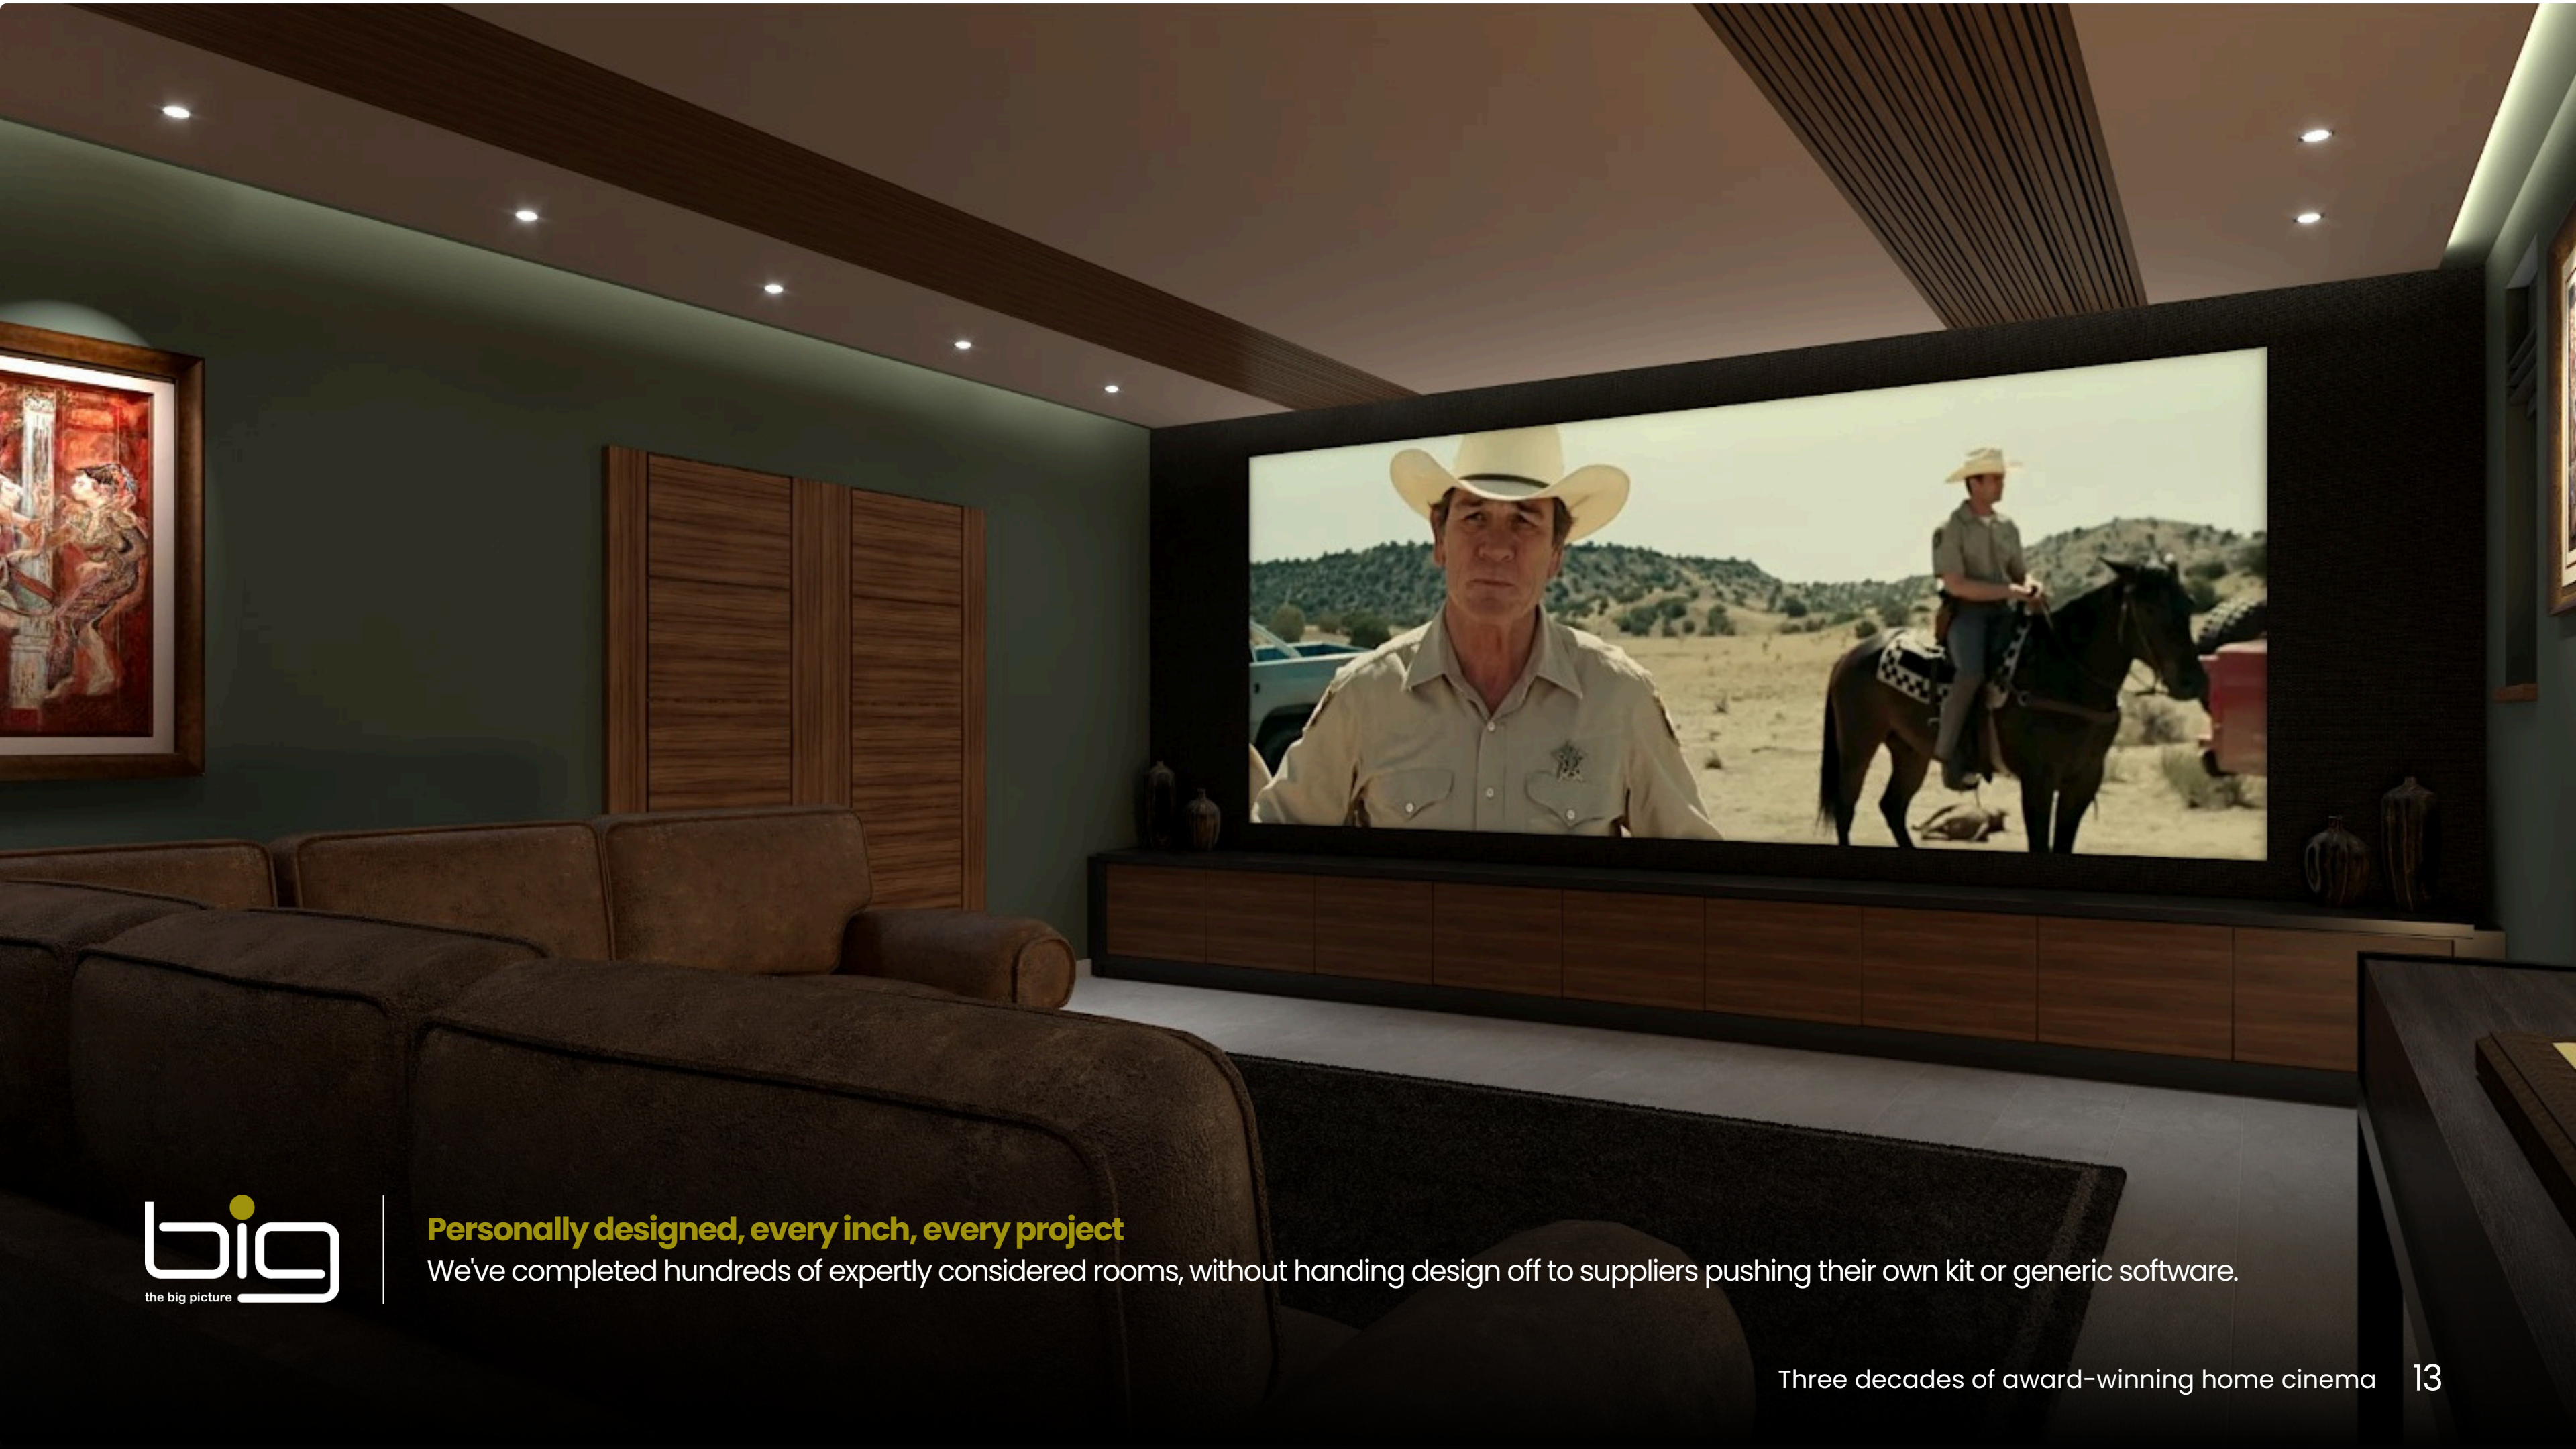

The Perfect Media Loungue

Where everyday viewing meets cinema-grade sound and picture, designed around how you actually live.

Automation, for the whole family

Control4 is the market's most sophisticated system, turning single presses into timed macros and putting control in everyone's hands.

Personally designed, every inch, every project

We've completed hundreds of expertly considered rooms, without handing design off to suppliers pushing their own kit or generic software.

'For anyone who is serious about having a high-quality install, I cannot recommend The Big Picture highly enough. Ciaran is a lovely person to work with, extremely detail-conscious and focused and will deliver the best possible result for your budget.' **Jordi Robinson, Medical Sales Director**

'All work was carried out in an efficient, tidy, timely manner, allowing for decorating and furniture fitting. Our new system performs way beyond our expectations. I would recommend The Big Picture to anyone with home cinema aspirations.' **Dave Hathaway, MD**
